## .-online.com antibodies

## Datasheet for ABIN7536720 anti-Factor XIII antibody

Overview

Quantity:	10 mg
Target:	Factor XIII (F13)
Reactivity:	Human
Host:	Sheep
Clonality:	Polyclonal
Conjugate:	This Factor XIII antibody is un-conjugated
Application:	Western Blotting (WB), ELISA, Neutralization (Neut), Immunoprecipitation (IP), Immunoelectrophoresis (IEP), Immunodepletion (IDe)

## Product Details

Purpose:	Factor XIII Polyclonal Antibody
Immunogen:	Human Factor XIII (A2B2) purified from plasma
lsotype:	lgG
Specificity:	Human Factor XIII, F13, FXIII,
Purification:	Fractionation of IgG from antiserum
Target Details	
Target:	Factor XIII (F13)

Target:	Factor XIII (F13)
Alternative Name:	Factor XIII (F13 Products)

Application Details	
Application Notes:	Immunoblot 5-25 µg/mL, ELISA capture 20-50 µg/mL
Comment:	Whole IgG is a base level product and refers to IgG antibodies purified from antiserum using multiple precipitation and dialysis steps. The purity of the IgG is typically 90% and is provided in a solution of HEPES buffered saline containing 50% glycerol (v/v). The titre is essentially the same as the starting antiserum and each vial typically contains the amount of IgG recovered from one millilitre of antiserum. This level of product is generally intended for use in applications such as immunoprecipitation, immunoelectrophoresis, immuno-depletion and activity neutralization assays.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Reconstitution:	Allow product to warm to room temperature and gently mix before use
Concentration:	10 mg/mL
Buffer:	10 mM HEPES, pH 7.4, 150 mM NaC, 50 % (v/v) glycerol
Storage:	-20 °C
Storage Comment:	Store between -10°C and -20°C
