## Recombinant anti-CA9 (Girentuximab Biosimilar) antibody

### Overview

Quantity:	100 µg
Target:	CA9 (Girentuximab Biosimilar)
Reactivity:	Human
Host:	Human, Mouse
Antibody Type:	Recombinant Antibody
Clonality:	Chimeric
Conjugate:	This CA9 (Girentuximab Biosimilar) antibody is un-conjugated
Application:	ELISA, Western Blotting (WB)

### Product Details

Purpose:	Girentuximab Biosimilar - Anti-CA9 mAb - Research Grade
Isotype:	IgG1 kappa
Characteristics:	Antibody Type: IgG1-kappa
Purity:	> 85%
Grade:	Research Grade

### Target Details

Target:	CA9 (Girentuximab Biosimilar)
Target Type:	Biosimilar
Background:	Recombinant chimeric antibody binding to human CA9. Girentuximab is a chimeric monoclonal

## Target Details

---

antibody designed for the treatment of renal cell carcinoma.

---

CAS-No: 916138-87-9

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Buffer: PBS buffer PH7.5

---

Storage: -80 °C

---

Storage Comment: store at -80°C
