Datasheet for ABIN7538059

Recombinant anti-CCL2 (Carlumab Biosimilar) antibody

Overview

Quantity:	100 µg
Target:	CCL2 (Carlumab Biosimilar)
Reactivity:	Human
Host:	Human
Antibody Type:	Recombinant Antibody
Clonality:	Monoclonal
Conjugate:	This CCL2 (Carlumab Biosimilar) antibody is un-conjugated
Application:	ELISA, Western Blotting (WB)

Product Details

Purpose:	Carlumab Biosimilar – Anti-CCL2 mAb - Research Grade
Isotype:	IgG1 kappa
Characteristics:	Antibody Type: IgG1-kappa
Purity:	> 85%
Grade:	Research Grade

Target Details

Target:	CCL2 (Carlumab Biosimilar)
Background:	Carlumab is a human anti-CCL2 (chemokine ligand 2) antibody with high affinity. Carlumab can be used in cancer research, particularly in prostate cancer.

Target Details

CAS-No: 915404-94-3

Application Details

Restrictions: For Research Use only

Handling

Buffer: PBS buffer PH7.5

Storage: -80 °C

Storage Comment: store at -80°C
