## Recombinant anti-CCN2 (Pamrevlumab Biosimilar) antibody

### Overview

Quantity:	100 µg
Target:	CCN2 (Pamrevlumab Biosimilar)
Reactivity:	Human
Host:	Human
Antibody Type:	Recombinant Antibody
Clonality:	Monoclonal
Conjugate:	This CCN2 (Pamrevlumab Biosimilar) antibody is un-conjugated
Application:	ELISA, Western Blotting (WB)

### Product Details

Purpose:	Pamrevlumab Biosimilar - Anti-CTGF, IGFBP-8 mAb - Research Grade
Isotype:	IgG1 kappa
Characteristics:	Antibody Type: IgG1-kappa
Purity:	> 85%
Grade:	Research Grade

### Target Details

Target:	CCN2 (Pamrevlumab Biosimilar)
Background:	Pamrevlumab is a recombinant human antibody that binds to connective tissue growth factor (CTGF). It can be used for the research of idiopathic pulmonary fibrosis (IPF).

## Target Details

---

CAS-No: 946415-13-0

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Buffer: PBS buffer PH7.5

Storage: -80 °C

Storage Comment: store at -80°C
