SSR4 Protein

Overview

Quantity:	50 μg
Target:	SSR4
Origin:	Human
Source:	Mammalian Cells
Protein Type:	Synthetic Nanodisc

Product Details

Purpose:	Human SSR4 full length protein-synthetic nanodisc
Characteristics:	Unlike other membrane scaffold protein (MSP) Nanodisc on the market, our synthetic Nanodisc
	can be prepared directly from the cells. The polymers used during this process have a dual
	function. It dissolves the cell membranes, like the detergent, and uses cellular phospholipids to
	form Nanodisc around the membrane proteins. The target protein embedded Nanodiscs can
	then be purified.

Target Details

0004

l arget:	SSR4
Alternative Name:	SSR4 (SSR4 Products)
Background:	Somatostatin acts at many sites to inhibit the release of many hormones and other secretory
	proteins. The biologic effects of somatostatin are probably mediated by a family of G protein-
	coupled receptors that are expressed in a tissue-specific manner. SSTR4 is a member of the
	superfamily of receptors having seven transmembrane segments and is expressed in highest
	levels in fetal and adult brain and lung. [provided by RefSeq, Jul 2008]

Target Details

Molecular Weight:	The human full length SSR4 protein has a MW of 42kDa
UniProt:	P31391

Comment:	Advantages of Synthetic Nanodiscs:
	Highly purified membrane proteins
	High solubility in aqueous solutions
	High stability
	 Proteins are in a native membrane environment and remain biologically active
	 No detergent and can be used for cell-based assays
	No MSP backbone proteins

• Intolerant to acids and high concentrations of divalent metal ions

Restrictions: For Research Use only

Handling

Format:	Lyophilized
Buffer:	Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5 % - 8 % trehalose is added as protectants before lyophilization.
Storage:	-20 °C,-80 °C
Storage Comment:	Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
Expiry Date:	12 months
