Datasheet for ABIN7538587 VIPR2 Protein

Overview

Quantity:	50 µg
Target:	VIPR2
Origin:	Human
Source:	Mammalian Cells
Protein Type:	Synthetic Nanodisc

Product Details

Purpose:	Human VIPR2 full length protein-synthetic nanodisc
Characteristics:	Unlike other membrane scaffold protein (MSP) Nanodisc on the market, our synthetic Nanodisc
	can be prepared directly from the cells. The polymers used during this process have a dual
	function. It dissolves the cell membranes, like the detergent, and uses cellular phospholipids to
	form Nanodisc around the membrane proteins. The target protein embedded Nanodiscs can
	then be purified.

Target Details

Target:	VIPR2
Alternative Name:	VIPR2 (VIPR2 Products)
Background:	This gene encodes a receptor for vasoactive intestinal peptide, a small neuropeptide.
	Vasoactive intestinal peptide is involved in smooth muscle relaxation, exocrine and endocrine
	secretion, and water and ion flux in lung and intestinal epithelia. Its actions are effected through
	integral membrane receptors associated with a guanine nucleotide binding protein which
	activates adenylate cyclase. [provided by RefSeq, Aug 2011]

Target Details	
Molecular Weight:	The human full length VIPR2 protein has a MW of 49.5kDa
UniProt:	P41587
Pathways:	cAMP Metabolic Process
Application Details	
Comment:	Advantages of Synthetic Nanodiscs:
	Highly purified membrane proteins

• High solubility in aqueous solutions

• High stability

• Proteins are in a native membrane environment and remain biologically active

• No detergent and can be used for cell-based assays

No MSP backbone proteins

Limitations of Synthetic Nanodiscs:

· Intolerant to acids and high concentrations of divalent metal ions

Restrictions:

For Research Use only

Handling

-	
Format:	Lyophilized
Buffer:	Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5 % - 8 % trehalose is added as protectants before lyophilization.
Storage:	-20 °C,-80 °C
Storage Comment:	Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
Expiry Date:	12 months
