Goat anti-Rabbit IgG (Heavy & Light Chain) Antibody (FITC)

Go to Product page

_			
()	V/C	rv	٨/

Quantity:	1 mg	
Target:	IgG	
Binding Specificity:	Heavy & Light Chain	
Reactivity:	Rabbit	
Host:	Goat	
Clonality:	Polyclonal	
Conjugate:	FITC	
Application:	ELISA, Immunohistochemistry (IHC), Western Blotting (WB), Flow Cytometry (FACS), Immunofluorescence (IF), Dot Blot (DB), Multiplex Assay (MA)	

Product Details

Purpose:	Goat Anti-Rabbit IgG H&L (FITC)	
Immunogen:	Rabbit IgG whole molecule	
Isotype:	IgG	
Specificity:	IgG (H&L)	
Purification:	This product was prepared from monospecific antiserum by immunoaffinity chromatography using Rabbit IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Fluorescein, anti-Goat Serum, Rabbit IgG and Rabbit Serum.	
Grade:	High-quality product from Rockland	

Target Details

Application Details Application Notes: Anti-Rabbit IgG Antibody Fluorescein has been tested by dot blot and western blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) at fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms. Restrictions: For Research Use only Handling Format: Lyophilized Reconstitution: Restore with deionized water (or equivalent) Concentration: 2.0 mg/mL Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 0.01% (w/v) Sodium Azide, mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free Preservative: Sodium azide Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. Storage: 4 "C,-20 "C Storage Comment: Store vial at 4" C prior to restoration. For extended storage aliquot contents and freeze at -2 or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear as	rarget Details		
Target Type: Antibody Background: Immunoglobulin heavy constant gamma 1, lg gamma-1 chain C region, lg gamma-1 chain C region NIE, IGHG1 Application Details Application Details Application Notes: Anti-Rabbit IgG Antibody Fluorescein has been tested by dot blot and western blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) at fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms Restrictions: For Research Use only Handling Format: Lyophilized Reconstitution: Restore with deionized water (or equivalent) Concentration: 2.0 mg/mL Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 0.01% (w/v) Sodium Azide, mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free Preservative: Sodium azide Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. Storage: 4 *C,-20 *C Storage Comment: Store vial at 4 * C prior to restoration. For extended storage aliquot contents and freeze at -2 or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear a standing at room temperature. This product is stable for several weeks at 4 * C as an undituding iliquid. Dilute only prior to immediate use.	Target:	IgG	
Background: Immunoglobulin heavy constant gamma 1, Ig gamma-1 chain C region, Ig gamma-1 chain region EU, Ig gamma-1 chain C region KOL, Ig gamma-1 chain C region NIE, IGHG1 Application Details Anti-Rabbit IgG Antibody Fluorescein has been tested by dot blot and western blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) at fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms. Restrictions: For Research Use only Handling Format: Lyophilized Reconstitution: Restore with deionized water (or equivalent) Concentration: 2.0 mg/ml. Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 0.01% (w/v) Sodium Azide, mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free Preservative: Sodium azide Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. Storage: 4 °C, 20 °C Storage Comment: Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at 2 or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear a standing at room temperature. This product is stable for several weeks at 4° C as an undiluding liquid. Dilute only prior to immediate use.
