**Recombinant anti-FBX032 antibody**[Go to Product page](#)

## Overview

|                    |                                       |
|--------------------|---------------------------------------|
| Quantity:          | 100 µL                                |
| Target:            | FBX032                                |
| Reactivity:        | Human                                 |
| Host:              | Rabbit                                |
| Expression System: | Mammalian cells                       |
| Antibody Type:     | Recombinant Antibody                  |
| Clonality:         | Monoclonal                            |
| Conjugate:         | This FBX032 antibody is un-conjugated |
| Application:       | Western Blotting (WB)                 |

## Product Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Purpose:          | Rabbit recombinant monoclonal antibody raised against human FBX032.     |
| Immunogen:        | Original antibody is raised against recombinant human FBX032:1-200/355. |
| Isotype:          | IgG                                                                     |
| Specificity:      | This antibody detects endogenous levels of Fbx32 protein.               |
| Cross-Reactivity: | Mouse, Rat                                                              |
