## Overview

|                               |  |
|-------------------------------|--|
| Quantity:                     | 1 mg   |
| Target:                       | C7orf42  |
| Protein Characteristics:      | AA 1-314                                       |
| Origin:                       | Human  |
| Source:                       | HEK-293 Cells                                  |
| Protein Type:                 | Recombinant                                    |
| Purification tag / Conjugate: | This C7orf42 protein is labelled with His tag. |

## Product Details

---

- Made to order protein - from design to production - by highly experienced protein experts.
- Protein expressed in mammalian cells and purified in one-step affinity chromatography
- The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins.
- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

## Target Details

---

|                   |  |
|-------------------|--|
| Target:           | C7orf42                                      |
| Alternative Name: | TMEM248 ( <a href="#">C7orf42 Products</a> ) |
| Background:       | Transmembrane protein 248                    |
| Molecular Weight: | 35.1 kDa                                     |
| UniProt:          | <a href="#">Q9NWD8</a>                       |

---

## Application Details

---

|                    |   |
|--------------------|---|
| Application Notes: | We expect the protein to work for functional studies. As the protein has not been tested for functional studies yet we cannot offer a guarantee though. |
| Restrictions:      | For Research Use only   |

---

## Handling

---

|         |  |
|---------|--|
| Format: | Liquid   |
| Buffer: | The buffer composition is at the discretion of the manufacturer. |

---

## Handling

---

Handling Advice: Avoid repeated freeze-thaw cycles.

---

Storage: -80 °C

---

Storage Comment: Store at -80°C.
