|         | This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.   |
|         | If you are not interested in a full length protein, please contact us for individual protein fragments.  |
|         | The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified. |

## Target Details

| Target:             | SAT2  |
|---------------------|---|
| Alternative Name:   | SAT2 (SAT2 Products)  |
| Background:         | Thialysine N-epsilon-acetyltransferase (EC 2.3.1) (Diamine acetyltransferase 2) (EC 2.3.1.57) (Spermidine/spermine N(1)-acetyltransferase 2) (SSAT-2),FUNCTION: Catalyzes the N-acetylation of the amino acid thialysine (S-(2-aminoethyl)-L-cysteine), a L-lysine analog with the 4-methylene group substituted with a sulfur (PubMed:15283699). May also catalyze acetylation of polyamines, such as norspermidine, spermidine or spermine (PubMed:12803540). However, ability to acetylate polyamines is weak, suggesting that it does not act as a diamine acetyltransferase in vivo (PubMed:15283699). {ECO:0000269 PubMed:12803540, ECO:0000269 PubMed:15283699}. |
