

Datasheet for ABIN7546491
CIDEA Protein (AA 1-219) (His tag)

[Go to Product page](#)

Overview

Quantity:	1 mg
Target:	CIDEA
Protein Characteristics:	AA 1-219
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This CIDEA protein is labelled with His tag.

Product Details

Purpose:	Custom-made recombinant CIDEA Protein expressed in mammalian cells.
Sequence:	MEAARDYAGA LIRPLTFMGS QTKRVLFTPL MHPARPFVRS NHDRSSRRGV MASSLQELIS KTLDALVIAT GLVTLVLEED GTVVDTEEFF QTLGDNTHFM ILEKGQKWMP GSQHVPTCSP PKRSGIARVT FDLYRLNPKD FIGCLNVKAT MYEMYSVSYD IRCTGLKGLL RSLLRFLSYS AQVTGQFLIY LGTYMLRVLD DKEERPSLRS QAKGRFTCG Sequence without tag. The proposed Purification-Tag is based on experiences with the expression system, a different complexity of the protein could make another tag necessary. In case you have a special request, please contact us.
Specificity:	If you are looking for a specific domain and are interested in a partial protein or a different isoform, please contact us regarding an individual offer.
Characteristics:	Key Benefits: <ul style="list-style-type: none">• Made to order protein - from design to production - by highly experienced protein experts.

Product Details

- Protein expressed in mammalian cells and purified in one-step affinity chromatography
- The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins.
- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Purity:	> 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)
Grade:	custom-made

Target Details

Target:	CIDEA
Alternative Name:	CIDEA (CIDEA Products)
Background:	<p>Lipid transferase CIDEA (Cell death activator CIDE-A) (Cell death-inducing DFFA-like effector A),FUNCTION: Lipid transferase that promotes unilocular lipid droplet formation by mediating lipid droplet fusion (PubMed:19843876, PubMed:26118629). Lipid droplet fusion promotes their enlargement, restricting lipolysis and favoring lipid storage (PubMed:19843876). Localizes on the lipid droplet surface, at focal contact sites between lipid droplets, and mediates atypical lipid droplet fusion by promoting directional net neutral lipid transfer from the smaller to larger lipid droplets (By similarity). The transfer direction may be driven by the internal pressure difference between the contacting lipid droplet pair and occurs at a lower rate than that promoted by CIDEA (By similarity). May also act as a CEBPB coactivator in epithelial cells to control the expression of a subset of CEBPB downstream target genes, including ID2, IGF1, PRLR, SOCS1, SOCS3, XDH, but not casein (By similarity). By interacting with CEBPB, strengthens the association of CEBPB with the XDH promoter, increases histone acetylation and dissociates HDAC1 from the promoter (By similarity). When overexpressed, induces apoptosis, the physiological significance of its role in apoptosis is unclear (By similarity).</p> <p>{ECO:0000250 UniProtKB:O70302, ECO:0000269 PubMed:19843876,</p>

Target Details

ECO:0000269|PubMed:26118629}.

Molecular Weight: 24.7 kDa

UniProt: [O60543](#)

Application Details

Application Notes: We expect the protein to work for functional studies. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: The buffer composition is at the discretion of the manufacturer.

Handling Advice: Avoid repeated freeze-thaw cycles.

Storage: -80 °C

Storage Comment: Store at -80°C.

Expiry Date: 12 months
