

## Datasheet for ABIN7546696

# C170RF50 Protein (AA 1-174) (His tag)

#### Overview

| Quantity:                     | 1 mg   |
|-------------------------------|--|
| Target:                       | C170RF50   |
| Protein Characteristics:      | AA 1-174   |
| Origin:                       | Human  |
| Source:                       | HEK-293 Cells  |
| Protein Type:                 | Recombinant  |
| Purification tag / Conjugate: | This C170RF50 protein is labelled with His tag.                      |
| Application:                  | SDS-PAGE (SDS), Western Blotting (WB)                                |
|                               |  |
| Product Details               |  |
| Durnaga                       | Custom made recombinat C17arfE0 Drotain expressed in mammalian calls |

| Product Details  |   |
|------------------|---|
| Purpose:         | Custom-made recombinat C17orf50 Protein expressed in mammalien cells.                       |
| Sequence:        | MDKHGVKTPL WKKETEELRA EDAEQEEGKE GSEDEDEDNQ RPLEDSATEG EEPPRVAEEG                           |
|                  | EGRERRSVSY CPLRQESSTQ QVALLRRADS GFWGWLGPLA LLGGLTAPTD RKRSLPEEPC                           |
|                  | VLEIRRRPPR RGGCACCELL FCKKCRSLHS HPAYVAHCVL DHPDLGKAGA AGNS Sequence                        |
|                  | without tag. The proposed Purification-Tag is based on experiences with the expression      |
|                  | system, a different complexity of the protein could make another tag necessary. In case you |
|                  | have a special request, please contact us.  |
| Characteristics: | Key Benefits:   |
|                  | Made to order protein - from design to production - by highly experienced protein experts.  |
|                  | Protein expressed in mammalien cells and purified in one-step affinity chromatography       |
|                  | The optimized expression system ensures reliability for intracellular, secreted and         |
|                  | transmembrane proteins.   |

State-of-the-art algorithm used for plasmid design (Gene synthesis).
 This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Purity: > 90 % as determined by Bis-Tris Page, Western Blot

Grade: custom-made

#### **Target Details**

| Target:           | C170RF50                         |
|-------------------|----------------------------------|
| Alternative Name: | C17orf50                         |
| Background:       | Uncharacterized protein C17orf50 |
| Molecular Weight: | 19.3 kDa                         |
| UniProt:          | Q8WW18                           |

#### **Application Details**

| Application Notes: | In addition to the applications listed above we expect the protein to work for functional studies |
|--------------------|---|
|                    | as well. As the protein has not been tested for functional studies yet we cannot offer a          |
|                    | guarantee though.   |
| Restrictions:      | For Research Use only   |

## Handling

| Format:          | Liquid   |
|------------------|--|
| Buffer:          | The buffer composition is at the discretion of the manufacturer. |
| Handling Advice: | Avoid repeated freeze-thaw cycles.                               |
| Storage:         | -80 °C   |

# Handling

| Storage Comment: | Store at -80°C. |
|------------------|-----------------|
| Expiry Date:     | 12 months       |
