	This protein is a made-to-order protein and will be made for the first time for your order. Our
	experts in the lab try to ensure that you receive soluble protein.
	If you are not interested in a full length protein, please contact us for individual protein
	fragments.
	The big advantage of ordering our made-to-order proteins in comparison to ordering custom
	made proteins from other companies is that there is no financial obligation in case the protein
	cannot be expressed or purified.
Purity:	> 90 % as determined by Bis-Tris Page, Western Blot
Grade:	custom-made
Target Details	
Target:	CREBL2
Alternative Name:	CREBL2 (CREBL2 Products)
Background:	CAMP-responsive element-binding protein-like 2,FUNCTION: Probable regulator of CREB1
	transcriptional activity which is involved in adipose cells differentiation. May also play a
	regulatory role in the cell cycle. Identification in a chromosomal region frequently deleted in
	various cancers suggests that it might act as a tumor suppressor.
	{ECO:0000269 PubMed:9693048}.
Molecular Weight:	13.8 kDa
UniProt:	060519
Pathways:	Positive Regulation of fat Cell Differentiation
Application Details	
Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies
	as well. As the protein has not been tested for functional studies yet we cannot offer a
	guarantee though.
Restrictions:	For Research Use only
