

Datasheet for ABIN7550279 NXNL2 Protein (AA 1-156) (His tag)

Overview

Quantity:	1 mg
Target:	NXNL2
Protein Characteristics:	AA 1-156
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This NXNL2 protein is labelled with His tag.

Product Details

Product Details	
Purpose:	Custom-made recombinant NXNL2 Protein expressed in mammalian cells.
Sequence:	MVDILGERHL VTCKGATVEA EAALQNKVVA LYFAAARCAP SRDFTPLLCD FYTALVAEAR
	RPAPFEVVFV SADGSSQEML DFMRELHGAW LALPFHDPYR HELRKRYNVT AIPKLVIVKQ
	NGEVITNKGR KQIRERGLAC FQDWVEAADI FQNFSV Sequence without tag. The proposed
	Purification-Tag is based on experiences with the expression system, a different complexity
	of the protein could make another tag necessary. In case you have a special request, please
	contact us.
Specificity:	If you are looking for a specific domain and are interested in a partial protein or a different
	isoform, please contact us regarding an individual offer.
Characteristics:	Key Benefits:
	Made to order protein - from design to production - by highly experienced protein experts.
	 Protein expressed in mammalian cells and purified in one-step affinity chromatography
	 The optimized expression system ensures reliability for intracellular, secreted and

transmembrane proteins.

• State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Purity:

> 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)

Grade:

custom-made

Target Details

Target:	NXNL2
Alternative Name:	NXNL2 (NXNL2 Products)
Background:	Nucleoredoxin-like protein 2 (Rod-derived cone viability factor 2) (RdCVF2),FUNCTION: May be involved in the maintenance of both the function and the viability of sensory neurons, including photoreceptors and olfactory neurons. {ECO:0000250}.
Molecular Weight:	17.6 kDa
UniProt:	Q5VZ03

Buffer:

Application Details	
Application Notes:	We expect the protein to work for functional studies. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.
Restrictions:	For Research Use only
Handling	
Format:	Liquid

The buffer composition is at the discretion of the manufacturer.

Handling

Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	12 months
