Product Details

- Made to order protein - from design to production - by highly experienced protein experts.
- Protein expressed in mammalian cells and purified in one-step affinity chromatography
- The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins.
- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Purity:	> 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)
Grade:	custom-made

Target Details

Target:	BSCL2
Alternative Name:	Bscl2 (BSCL2 Products)
Background:	<p>Seipin (Bernardinelli-Seip congenital lipodystrophy type 2 protein homolog),FUNCTION: Plays a crucial role in the formation of lipid droplets (LDs) which are storage organelles at the center of lipid and energy homeostasis (By similarity).In association with LDAF1, defines the sites of LD formation in the ER (By similarity). Also required for growth and maturation of small nascent LDs into larger mature LDs (By similarity). Mediates the formation and/or stabilization of endoplasmic reticulum-lipid droplets (ER-LD) contacts, facilitating protein and lipid delivery from the ER into growing LDs (By similarity). Regulates the maturation of ZFYVE1-positive nascent LDs and the function of the RAB18-ZFYVE1 complex in mediating the formation of ER-LD contacts (By similarity). Binds anionic phospholipids including phosphatidic acid (By similarity). Plays an important role in the differentiation and development of adipocytes (PubMed:18458148, PubMed:19574402, PubMed:21551454, PubMed:22269949).</p> <p>{ECO:0000250 UniProtKB:Q96G97, ECO:0000269 PubMed:18458148, ECO:0000269 PubMed:19574402, ECO:0000269 PubMed:21551454, ECO:0000269 PubMed:22269949}.</p>
