

## Datasheet for ABIN7556604 SNRPD1 Protein (AA 1-119) (His tag)

## Overview

| Quantity:                     | 1 mg  |
|-------------------------------|---|
| Target:                       | SNRPD1  |
| Protein Characteristics:      | AA 1-119                                      |
| Origin:                       | Mouse   |
| Source:                       | HEK-293 Cells                                 |
| Protein Type:                 | Recombinant                                   |
| Purification tag / Conjugate: | This SNRPD1 protein is labelled with His tag. |

| Product Details  |   |
|------------------|---|
| Purpose:         | Custom-made recombinant Snrpd1 Protein expressed in mammalian cells.  |
| Sequence:        | MKLVRFLMKL SHETVTIELK NGTQVHGTIT GVDVSMNTHL KAVKMTLKNR EPVQLETLSI   |
|                  | RGNNIRYFIL PDSLPLDTLL VDVEPKVKSK KREAVAGRGR GRGRGRGRGR GRGRGGPRR  |
|                  | Sequence without tag. The proposed Purification-Tag is based on experiences with the  |
|                  | expression system, a different complexity of the protein could make another tag necessary.  |
|                  | In case you have a special request, please contact us.  |
| Specificity:     | If you are looking for a specific domain and are interested in a partial protein or a different   |
|                  | isoform, please contact us regarding an individual offer.   |
| Characteristics: | Key Benefits:   |
|                  | <ul> <li>Made to order protein - from design to production - by highly experienced protein experts.</li> <li>Protein expressed in mammalian cells and purified in one-step affinity chromatography</li> </ul> |
|                  | <ul> <li>The optimized expression system ensures reliability for intracellular, secreted and<br/>transmembrane proteins.</li> </ul>   |

| Product Details     |   |
|---------------------|---|
|                     | State-of-the-art algorithm used for plasmid design (Gene synthesis).  |
|                     | This protein is a made-to-order protein and will be made for the first time for your order. Our   |
|                     | experts in the lab try to ensure that you receive soluble protein.  |
|                     | If you are not interested in a full length protein, please contact us for individual protein fragments.   |
|                     | The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.  |
| Purity:             | > 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)   |
| Grade:              | custom-made   |
| Target Details      |   |
| Target:             | SNRPD1  |
| Alternative Name:   | Snrpd1 (SNRPD1 Products)  |
| Background:         | Small nuclear ribonucleoprotein Sm D1 (Sm-D1) (Sm-D autoantigen) (snRNP core protein D1),FUNCTION: Plays a role in pre-mRNA splicing as a core component of the spliceosomal U1, U2, U4 and U5 small nuclear ribonucleoproteins (snRNPs), the building blocks of the spliceosome. Component of both the pre-catalytic spliceosome B complex and activated |
|                     | spliceosome C complexes. As a component of the minor spliceosome, involved in the splicing  |
|                     | of U12-type introns in pre-mRNAs. May act as a charged protein scaffold to promote snRNP assembly or strengthen snRNP-snRNP interactions through non-specific electrostatic contacts with RNA. {ECO:0000250 UniProtKB:P62314}.  |
| Molecular Weight:   | 13.3 kDa  |
| UniProt:            | P62315  |
| Pathways:           | Ribonucleoprotein Complex Subunit Organization  |
| Application Details |   |
| Application Notes:  | We expect the protein to work for functional studies. As the protein has not been tested for  |
|                     | functional studies yet we cannot offer a guarantee though.  |

For Research Use only

Restrictions:

## Handling

| Format:          | Liquid   |
|------------------|--|
| Buffer:          | The buffer composition is at the discretion of the manufacturer. |
| Handling Advice: | Avoid repeated freeze-thaw cycles.                               |
| Storage:         | -80 °C   |
| Storage Comment: | Store at -80°C.  |
| Expiry Date:     | 12 months  |
