

Datasheet for ABIN7560593  
**NDUFA6 Protein (AA 1-131) (His tag)**

[Go to Product page](#)

## Overview

Quantity:	1 mg
Target:	NDUFA6
Protein Characteristics:	AA 1-131
Origin:	Mouse
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This NDUFA6 protein is labelled with His tag.

## Product Details

Purpose:	Custom-made recombinant Ndufa6 Protein expressed in mammalian cells.
Sequence:	MAAAATGLRQ AAAAAASTSV KPIFSRDLNE AKRRVRELYR AWYREVPNTV HLMQLDITVK QGRDKVREMF MKNAHVTDPR VVDLLVIK GK MELQETIKVW KQRTHVMRFF HETETPRPKD FLSKFYMGHD P <b>Sequence without tag. The proposed Purification-Tag is based on experiences with the expression system, a different complexity of the protein could make another tag necessary. In case you have a special request, please contact us.</b>
Specificity:	If you are looking for a specific domain and are interested in a partial protein or a different isoform, please contact us regarding an individual offer.
Characteristics:	Key Benefits: <ul style="list-style-type: none"><li>• Made to order protein - from design to production - by highly experienced protein experts.</li><li>• Protein expressed in mammalian cells and purified in one-step affinity chromatography</li><li>• The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins.</li></ul>

## Product Details

---

- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

---

Purity:	> 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)
Grade:	custom-made

---

## Target Details

---

Target:	NDUFA6
Alternative Name:	Ndufa6 ( <a href="#">NDUFA6 Products</a> )
Background:	NADH dehydrogenase [ubiquinone] 1 alpha subcomplex subunit 6 (Complex I-B14) (CI-B14) (NADH-ubiquinone oxidoreductase B14 subunit),FUNCTION: Accessory subunit of the mitochondrial membrane respiratory chain NADH dehydrogenase (Complex I), that is believed to be not involved in catalysis. Required for proper complex I assembly. Complex I functions in the transfer of electrons from NADH to the respiratory chain. The immediate electron acceptor for the enzyme is believed to be ubiquinone. {ECO:0000250 UniProtKB:P56556}.
Molecular Weight:	15.3 kDa
UniProt:	<a href="#">Q9CQZ5</a>

---

## Application Details

---

Application Notes:	We expect the protein to work for functional studies. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.
Restrictions:	For Research Use only

---

## Handling

---

Format:	Liquid
---------	--------

---

## Handling

---

Buffer: The buffer composition is at the discretion of the manufacturer.

---

Handling Advice: Avoid repeated freeze-thaw cycles.

---

Storage: -80 °C

---

Storage Comment: Store at -80°C.

---

Expiry Date: 12 months
