

Datasheet for ABIN7560688 C7orf30 Protein (AA 1-228) (His tag)

o to i locadot pago

Overview	
Quantity:	1 mg
Target:	C7orf30
Protein Characteristics:	AA 1-228
Origin:	Mouse
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This C7orf30 protein is labelled with His tag.
Product Details	
Purpose:	Custom-made recombinant Malsu1 Protein expressed in mammalian cells.
Purpose: Sequence:	Custom-made recombinant Malsu1 Protein expressed in mammalian cells. MGPGWSPARR LWPLLWRRAV FQRAGPAMAS VPWLPRLAER WLPARPATCL TPSLTRGLHH

	 Protein expressed in mammalian cells and purified in one-step affinity chromatography The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins. State-of-the-art algorithm used for plasmid design (Gene synthesis).
	This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.
	If you are not interested in a full length protein, please contact us for individual protein fragments.
	The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.
Purity:	> 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)
Grade:	custom-made

Target Details

Target:	C7orf30
Alternative Name:	Malsu1 (C7orf30 Products)
Background:	Mitochondrial assembly of ribosomal large subunit protein 1,FUNCTION: Required for normal
	mitochondrial ribosome function and mitochondrial translation. May play a role in ribosome biogenesis by preventing premature association of the 28S and 39S ribosomal subunits.
	Interacts with mitochondrial ribosomal protein uL14m (MRPL14), probably blocking formation
	of intersubunit bridge B8, preventing association of the 28S and 39S ribosomal subunits.
	Addition to isolated mitochondrial ribosomal subunits partially inhibits translation, probably by
	interfering with the association of the 28S and 39S ribosomal subunits and the formation of
	functional ribosomes. May also participate in the assembly and/or regulation of the stability of
	the large subunit of the mitochondrial ribosome. May function as a ribosomal silencing factor.
	{EC0:0000250 UniProtKB:Q96EH3}.
Molecular Weight:	26.0 kDa
UniProt:	Q9CWV0

Application Details	
Application Notes:	We expect the protein to work for functional studies. As the protein has not been tested for
	functional studies yet we cannot offer a guarantee though.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Buffer:	The buffer composition is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	12 months
