

Datasheet for ABIN7561053
CALML3 Protein (AA 1-149) (His tag)

[Go to Product page](#)

Overview

Quantity:	1 mg
Target:	CALML3
Protein Characteristics:	AA 1-149
Origin:	Mouse
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This CALML3 protein is labelled with His tag.

Product Details

Purpose:	Custom-made recombinant Calml3 Protein expressed in mammalian cells.
Sequence:	MADQLTEEQI AEFKEAFSLF DKDGDGSITT QELGTVMRSL GQNPTEAELQ GMVNEIDKDG NGTVDFPEFL TMMSRKMKDT DSEEEIREAF RVFDKDGNGF VSAELRHVM TKLGEKLSDE EVDEMIQAAD TDGDGQVNYE EHVHMLVSK Sequence without tag. The proposed Purification- Tag is based on experiences with the expression system, a different complexity of the protein could make another tag necessary. In case you have a special request, please contact us.
Specificity:	If you are looking for a specific domain and are interested in a partial protein or a different isoform, please contact us regarding an individual offer.
Characteristics:	Key Benefits: <ul style="list-style-type: none">• Made to order protein - from design to production - by highly experienced protein experts.• Protein expressed in mammalian cells and purified in one-step affinity chromatography• The optimized expression system ensures reliability for intracellular, secreted and

Product Details

transmembrane proteins.

- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Purity:	> 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)
---------	-----------------------------------------------------------------------------------------------

Grade:	custom-made
--------	-------------

Target Details

Target:	CALML3
---------	--------

Alternative Name:	Calml3 (CALML3 Products)
-------------------	--------------------------------------------

Background:	Calmodulin-like protein 3,FUNCTION: May function as a specific light chain of unconventional myosin-10 (MYO10), also enhances MYO10 translation, possibly by acting as a chaperone for the emerging MYO10 heavy chain protein. May compete with calmodulin by binding, with different affinities, to cellular substrates (By similarity). {ECO:0000250}.
-------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Molecular Weight:	16.7 kDa
-------------------	----------

UniProt:	Q9D6P8
----------	------------------------

Pathways:	Phototransduction
-----------	-----------------------------------

Application Details

Application Notes:	We expect the protein to work for functional studies. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.
--------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
Buffer:	The buffer composition is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	12 months
