## Product Details

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Purity: > 90 % as determined by Bis-Tris Page, Western Blot

Grade: custom-made

## Target Details

Target: SH3BGRL

Alternative Name: Sh3bgrl ([SH3BGRL Products](#))

Background: Adapter Sh3bgrl (SH3 domain-binding glutamic acid-rich-like protein 1),FUNCTION: Appears to function as an adapter protein that bridges proteins together or proteins with mRNAs. May function as a ubiquitin ligase-substrate adapter. Additionally, associates with translating cytoplasmic ribosomes and may promote the expression of specific mRNAs. {ECO:0000250|UniProtKB:O75368}.

Molecular Weight: 12.8 kDa

UniProt: [Q9JJU8](#)

## Application Details

Application Notes: In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.

Restrictions: For Research Use only
