Datasheet for ABIN7561667

NINJ2 Protein (AA 1-143) (His tag)

Overview

| | |
|-------------------------------|--|
| Quantity: | 1 mg |
| Target: | NINJ2 |
| Protein Characteristics: | AA 1-143 |
| Origin: | Mouse |
| Source: | HEK-293 Cells |
| Protein Type: | Recombinant |
| Purification tag / Conjugate: | This NINJ2 protein is labelled with His tag. |

Product Details

| | |
|------------------|--|
| Purpose: | Custom-made recombinant Ninj2 Protein expressed in mammalian cells. |
| Sequence: | MESDRETIHL QHRHSMRGGN QRIDLNFYAT KKSVAESMLD VALFMSNAMR LKSVLQQGPF AEYTTLVTL IIVSLLLQVV ISLLLVFIAI LNLNEVENQR HLNKLNNAAT ILVFITVVIN IFITAFGAHH AASMAARTSS NPI Sequence without tag. The proposed Purification-Tag is based on experiences with the expression system, a different complexity of the protein could make another tag necessary. In case you have a special request, please contact us. |
| Specificity: | If you are looking for a specific domain and are interested in a partial protein or a different isoform, please contact us regarding an individual offer. |
| Characteristics: | Key Benefits: <ul style="list-style-type: none">• Made to order protein - from design to production - by highly experienced protein experts.• Protein expressed in mammalian cells and purified in one-step affinity chromatography• The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins. |

Product Details

- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

| | |
|---------|---|
| Purity: | > 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC) |
| Grade: | custom-made |

Target Details

| | |
|-------------------|---|
| Target: | NINJ2 |
| Alternative Name: | Ninj2 (NINJ2 Products) |
| Background: | Ninjurin-2 (Nerve injury-induced protein 2),FUNCTION: Effector of necroptotic and pyroptotic programmed cell death that mediates plasma membrane rupture (cytolysis). Acts downstream of Gasdermin (GSDMA, GSDMB, GSDMC, GSDMD, or GSDME) or MLKL during pyroptosis or necroptosis, respectively: oligomerizes in response to death stimuli and promotes plasma membrane rupture by introducing hydrophilic faces of 2 alpha helices into the hydrophobic membrane, leading to release intracellular molecules named damage-associated molecular patterns (DAMPs) that propagate the inflammatory response (By similarity). Also acts as a homophilic transmembrane adhesion molecule involved in nerve regeneration. Promotes axonal growth (By similarity). {ECO:0000250 UniProtKB:Q92982, ECO:0000250 UniProtKB:Q9NZG7}. |
| Molecular Weight: | 16.0 kDa |
| UniProt: | Q9JL89 |

Application Details

| | |
|--------------------|---|
| Application Notes: | We expect the protein to work for functional studies. As the protein has not been tested for functional studies yet we cannot offer a guarantee though. |
|--------------------|---|

Application Details

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: The buffer composition is at the discretion of the manufacturer.

Handling Advice: Avoid repeated freeze-thaw cycles.

Storage: -80 °C

Storage Comment: Store at -80°C.

Expiry Date: 12 months
