Handling Advice:

Storage:

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein. If you are not interested in a full length protein, please contact us for individual protein fragments. The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified. Purity: > 90 % as determined by Bis-Tris Page, Western Blot Grade: custom-made **Target Details** TRAPPC2L Target: Abstract: TRAPPC2L Products Background: Trafficking protein particle complex subunit 2-like protein, FUNCTION: May play a role in vesicular transport from endoplasmic reticulum to Golgi. {ECO:0000250}. 16.0 kDa Molecular Weight: UniProt: Q9JME7 Application Details **Application Notes:** In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.
