

Datasheet for ABIN7562257
MAL Protein (AA 1-153) (His tag)

[Go to Product page](#)

Overview

Quantity:	1 mg
Target:	MAL
Protein Characteristics:	AA 1-153
Origin:	Mouse
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This MAL protein is labelled with His tag.
Application:	Western Blotting (WB), SDS-PAGE (SDS)

Product Details

Purpose:	Custom-made recombinat Mal Protein expressed in mammalian cells.
Sequence:	MAPAAASGGS TLP SGFSVFT TFPDLLFVCE FVFGGLWIL IASSLVPLPL AQGWVMFVSV FCFVATTSLM ILYIIGTHGG ETSWITLDAA YHCVAALFYI SASVLEALAT ISMFDGFTYK HYHENIAAVV FAYVVTLIYV VHAFVSLIRW KSS Sequence without tag. The proposed Purification-Tag is based on experiences with the expression system, a different complexity of the protein could make another tag necessary. In case you have a special request, please contact us.
Characteristics:	Key Benefits: • Made to order protein - from design to production - by highly experienced protein experts. • Protein expressed in mammalian cells and purified in one-step affinity chromatography • The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins.

Product Details

- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

If you are not interested in a full length protein, please contact us for individual protein fragments.

The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Purity:	> 90 % as determined by Bis-Tris Page, Western Blot
---------	---

Grade:	custom-made
--------	-------------

Target Details

Target:	MAL
---------	-----

Alternative Name:	Mal (MAL Products)
-------------------	--------------------------------------

Background:	Myelin and lymphocyte protein (T-lymphocyte maturation-associated protein),FUNCTION: Could be an important component in vesicular trafficking cycling between the Golgi complex and the apical plasma membrane. Plays a role in the maintenance of the myelin sheath and in axon-glia and glia-glia interactions. {ECO:0000269 PubMed:15337780}.
-------------	--

Molecular Weight:	16.6 kDa
-------------------	----------

UniProt:	O09198
----------	------------------------

Pathways:	Asymmetric Protein Localization
-----------	---

Application Details

Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.
--------------------	--

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
Buffer:	The buffer composition is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	12 months
