

## Datasheet for ABIN7563097 SSTR1 Protein (AA 1-391) (His tag)

Overview

| Quantity:                     | 1 mg                                         |
|-------------------------------|----------------------------------------------|
| Target:                       | SSTR1                                        |
| Protein Characteristics:      | AA 1-391                                     |
| Origin:                       | Mouse                                        |
| Source:                       | HEK-293 Cells                                |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This SSTR1 protein is labelled with His tag. |

## Product Details

| Purpose:     | Custom-made recombinant Sstr1 Protein expressed in mammalian cells.                             |
|--------------|-------------------------------------------------------------------------------------------------|
| Sequence:    | MFPNGTASSP SSSPSPSPGS CGEGACSRGP GSGAADGMEE PGRNASQNGT LSEGQGSAIL                               |
|              | ISFIYSVVCL VGLCGNSMVI YVILRYAKMK TATNIYILNL AIADELLMLS VPFLVTSTLL                               |
|              | RHWPFGALLC RLVLSVDAVN MFTSIYCLTV LSVDRYVAVV HPIKAARYRR PTVAKVVNLG                               |
|              | VWVLSLLVIL PIVVFSRTAA NSDGTVACNM LMPEPAQRWL VGFVLYTFLM GFLLPVGAIC                               |
|              | LCYVLIIAKM RMVALKAGWQ QRKRSERKIT LMVMMVVMVF VICWMPFYVV QLVNVFAEQD                               |
|              | DATVSQLSVI LGYANSCANP ILYGFLSDNF KRSFQRILCL SWMDNAAEEP VDYYATALKS                               |
|              | RAYSVEDFQP ENLESGGVFR NGTCASRIST L Sequence without tag. The proposed                           |
|              | Purification-Tag is based on experiences with the expression system, a different complexity     |
|              | of the protein could make another tag necessary. In case you have a special request, please     |
|              | contact us.                                                                                     |
| Specificity: | If you are looking for a specific domain and are interested in a partial protein or a different |
|              | isoform, please contact us regarding an individual offer.                                       |

| Product Details  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Characteristics: | <ul> <li>Key Benefits:</li> <li>Made to order protein - from design to production - by highly experienced protein experts.</li> <li>Protein expressed in mammalian cells and purified in one-step affinity chromatography</li> <li>The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins.</li> <li>State-of-the-art algorithm used for plasmid design (Gene synthesis).</li> <li>This protein is a made-to-order protein and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.</li> </ul> |
|                  | If you are not interested in a full length protein, please contact us for individual protein fragments.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|                  | The big advantage of ordering our made-to-order proteins in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.                                                                                                                                                                                                                                                                                                                                                                                          |
| Purity:          | > 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Grade:           | custom-made                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Target Details

| Target:             | SSTR1                                                                                                                                                                                                                                                                                                                                                                                |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Alternative Name:   | Sstr1 (SSTR1 Products)                                                                                                                                                                                                                                                                                                                                                               |
| Background:         | Somatostatin receptor type 1 (SS-1-R) (SS1-R) (SS1R) (SRIF-2),FUNCTION: Receptor for somatostatin with higher affinity for somatostatin-14 than -28. This receptor is coupled via pertussis toxin sensitive G proteins to inhibition of adenylyl cyclase. In addition it stimulates phosphotyrosine phosphatase and Na(+)/H(+) exchanger via pertussis toxin insensitive G proteins. |
| Molecular Weight:   | 42.7 kDa                                                                                                                                                                                                                                                                                                                                                                             |
| UniProt:            | P30873                                                                                                                                                                                                                                                                                                                                                                               |
| Application Details |                                                                                                                                                                                                                                                                                                                                                                                      |
| Application Notes:  | We expect the protein to work for functional studies. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.                                                                                                                                                                                                                              |

## Handling

| Format:          | Liquid                                                           |
|------------------|------------------------------------------------------------------|
| Buffer:          | The buffer composition is at the discretion of the manufacturer. |
| Handling Advice: | Avoid repeated freeze-thaw cycles.                               |
| Storage:         | -80 °C                                                           |
| Storage Comment: | Store at -80°C.                                                  |
| Expiry Date:     | 12 months                                                        |
