Specificity:	If you are looking for a specific domain and are interested in a partial protein or a different
	isoform, please contact us regarding an individual offer.
Characteristics:	Key Benefits:
	Made to order protein - from design to production - by highly experienced protein experts.
	 Protein expressed in mammalian cells and purified in one-step affinity chromatography The optimized expression system ensures reliability for intracellular, secreted and transmembrane proteins.
	State-of-the-art algorithm used for plasmid design (Gene synthesis).
	This protein is a made-to-order protein and will be made for the first time for your order. Our
	experts in the lab try to ensure that you receive soluble protein.
	If you are not interested in a full length protein, please contact us for individual protein
	fragments.
	The big advantage of ordering our made-to-order proteins in comparison to ordering custom
	made proteins from other companies is that there is no financial obligation in case the protein
	cannot be expressed or purified.
Purity:	> 90 % as determined by Bis-Tris PAGE, anti-tag ELISA, Western Blot and analytical SEC (HPLC)
Grade:	custom-made
Target Details	
Target:	TLE2
Alternative Name:	Tle2 (TLE2 Products)
Background:	Transducin-like enhancer protein 2,FUNCTION: Transcriptional corepressor that binds to a
	number of transcription factors. Inhibits the transcriptional activation mediated by CTNNB1 and
	TCF family members in Wnt signaling. The effects of full-length TLE family members may be
	modulated by association with dominant-negative AES (By similarity). {ECO:0000250}.
Molecular Weight:	82.6 kDa
UniProt:	Q9WVB2
