## Overview

|              |                                          |
|--------------|------------------------------------------|
| Quantity:    | 100 µg                                   |
| Target:      | TNFRSF13C                                |
| Reactivity:  | Human                                    |
| Host:        | Human                                    |
| Clonality:   | Monoclonal                               |
| Conjugate:   | This TNFRSF13C antibody is un-conjugated |
| Application: | Flow Cytometry (FACS)                    |

## Product Details

|               |                                               |
|---------------|-----------------------------------------------|
| Purpose:      | Anti-Human CD268/TNFRSF13C Antibody (VAY-736) |
| Clone:        | VAY-736                                       |
| Isotype:      | IgG1, kappa                                   |
| Purification: | Protein A or G purified.                      |
| Purity:       | >95 %                                         |

## Target Details

|                   |                                                                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | TNFRSF13C                                                                                                                                                      |
| Alternative Name: | CD268 ( <a href="#">TNFRSF13C Products</a> )                                                                                                                   |
| Background:       | BR3, TNFRSF13C, BAFF receptor, BLyS receptor 3, Tumor necrosis factor receptor superfamily member 13C, CD268, B-cell-activating factor receptor, BAFFR, BAFF-R |

## Target Details

---

Pathways: [NF-kappaB Signaling](#)

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.01M PBS, pH 7.4.

Storage: 4 °C,-20 °C,-80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze-thaw cycles.Store at +4°C short term (1-2 weeks).Store at -20 °C 12 months. Store at -80°C long term.
