## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | AKAP11                                                   |
| Binding Specificity: | AA 13-170                                                |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This AKAP11 antibody is un-conjugated                    |
| Application:         | Immunohistochemistry (IHC), ELISA, Western Blotting (WB) |

## Product Details

|               |                                                            |
|---------------|------------------------------------------------------------|
| Purpose:      | Anti-Human AKAP11 Polyclonal Antibody                      |
| Immunogen:    | E. coli - derived recombinant Human AKAP11 (Ala13-Asp170). |
| Isotype:      | IgG                                                        |
| Purification: | Antigen affinity purification.                             |

## Target Details

|                   |                                                                                                                                                                    |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | AKAP11                                                                                                                                                             |
| Alternative Name: | AKAP11 ( <a href="#">AKAP11 Products</a> )                                                                                                                         |
| Background:       | A-kinase anchor protein 220 kDa, KIAA0629, A-kinase anchor protein 11, AKAP11, hAKAP220, AKAP-11, Protein kinase A-anchoring protein 11, PRKA11, AKAP220, AKAP 220 |

## Target Details

UniProt: [Q9UKA4](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C,-80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 4°C for frequent use.Store at -20 to -80 °C for twelve months from the date of receipt.
