## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | CCL24                                                    |
| Binding Specificity: | AA 27-119                                                |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This CCL24 antibody is un-conjugated                     |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                                                |
|---------------|--------------------------------------------------------------------------------|
| Purpose:      | Anti-CCL24/Eotaxin-2/MPIF-2 Polyclonal antibody                                |
| Immunogen:    | E. coli - derived recombinant Human CCL24 / Eotaxin-2 / MPIF-2 (Val27-Cys119). |
| Isotype:      | IgG                                                                            |
| Purification: | Antigen affinity purification.                                                 |

## Target Details

|                   |                                                                                                                                                                            |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | CCL24                                                                                                                                                                      |
| Alternative Name: | CCL24 ( <a href="#">CCL24 Products</a> )                                                                                                                                   |
| Background:       | MPIF2,Eosinophil chemotactic protein 2,Small-inducible cytokine A24,CCL24,Eotaxin-2,SCYA24,MPIF-2,Myeloid progenitor inhibitory factor 2,CK-beta-6,C-C motif chemokine 24, |

## Target Details

UniProt: [O00175](#)

Pathways: [Regulation of Actin Filament Polymerization](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C, -80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 4°C for frequent use. Store at -20 to -80 °C for twelve months from the date of receipt.
