## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | M-CSF/CSF1 (CSF1)                                        |
| Binding Specificity: | AA 33-262                                                |
| Reactivity:          | Mouse                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This M-CSF/CSF1 antibody is un-conjugated                |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                                |
|---------------|----------------------------------------------------------------|
| Purpose:      | Anti-Mouse CSF1/M-CSF Polyclonal Antibody                      |
| Immunogen:    | E. coli - derived recombinant Mouse CSF1/M-CSF (Lys33-Glu262). |
| Isotype:      | IgG                                                            |
| Purification: | Antigen affinity purification.                                 |

## Target Details

|                   |                                                                              |
|-------------------|------------------------------------------------------------------------------|
| Target:           | M-CSF/CSF1 (CSF1)                                                            |
| Alternative Name: | CSF1 ( <a href="#">CSF1 Products</a> )                                       |
| Background:       | CSF1, Macrophage colony-stimulating factor 1, CSF-1, Lanimostim, M-CSF, MCSF |
| UniProt:          | <a href="#">P07141</a>                                                       |

## Target Details

Pathways: [RTK Signaling](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C,-80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 4°C for frequent use.Store at -20 to -80 °C for twelve months from the date of receipt.
