## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | DNAJB6                                                   |
| Binding Specificity: | AA 1-124                                                 |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This DNAJB6 antibody is un-conjugated                    |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                           |
|---------------|-----------------------------------------------------------|
| Purpose:      | Anti-Human DNAJB6 Polyclonal Antibody                     |
| Immunogen:    | E. coli - derived recombinant Human DNAJB6 (Met1-Gly124). |
| Isotype:      | IgG                                                       |
| Purification: | Antigen affinity purification.                            |

## Target Details

|                   |                                                                                                        |
|-------------------|--------------------------------------------------------------------------------------------------------|
| Target:           | DNAJB6                                                                                                 |
| Alternative Name: | DNAJB6 ( <a href="#">DNAJB6 Products</a> )                                                             |
| Background:       | HHDJ1, Heat shock protein J2, MRJ, HSJ-2, HSJ2, MSJ-1, DnaJ homolog subfamily B member 6, DNAJB6, MSJ1 |

## Target Details

UniProt: [O75190](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C,-80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 4°C for frequent use.Store at -20 to -80 °C for twelve months from the date of receipt.
