## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | DYNLL1                                                   |
| Binding Specificity: | AA 2-89                                                  |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This DYNLL1 antibody is un-conjugated                    |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                          |
|---------------|----------------------------------------------------------|
| Purpose:      | Anti-Human DYNLL1 Polyclonal Antibody                    |
| Immunogen:    | E. coli - derived recombinant Human DYNLL1 (Cys2-Gly89). |
| Isotype:      | IgG                                                      |
| Purification: | Antigen affinity purification.                           |

## Target Details

|                   |                                                                                                                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | DYNLL1                                                                                                                                                                                         |
| Alternative Name: | DYNLL1 ( <a href="#">DYNLL1 Products</a> )                                                                                                                                                     |
| Background:       | DNCL1, Dynein light chain 1, cytoplasmic, DNCLC1, 8 kDa dynein light chain, DLC1, HDLC1, PIN, Dynein light chain LC8-type 1, DLC8, Protein inhibitor of neuronal nitric oxide synthase, DYNLL1 |

## Target Details

UniProt: [P63167](#)

Pathways: [M Phase, Tube Formation, Positive Regulation of Endopeptidase Activity](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C, -80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 4°C for frequent use. Store at -20 to -80 °C for twelve months from the date of receipt.
