## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | EFCAB4B                                                  |
| Binding Specificity: | AA 543-731                                               |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This EFCAB4B antibody is un-conjugated                   |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                              |
|---------------|--------------------------------------------------------------|
| Purpose:      | Anti-Human CRACR2A Polyclonal Antibody                       |
| Immunogen:    | E. coli - derived recombinant Human CRACR2A (Asp543-Gly731). |
| Isotype:      | IgG                                                          |
| Purification: | Antigen affinity purification.                               |

## Target Details

|                   |                                                                                                                                                                                   |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | EFCAB4B                                                                                                                                                                           |
| Alternative Name: | CRACR2A ( <a href="#">EFCAB4B Products</a> )                                                                                                                                      |
| Background:       | Calcium release-activated channel regulator 2A, EF-hand calcium-binding domain-containing protein 4B, CRACR2A, RAB46, Ras-related protein Rab-46, EFCAB4B, CRAC channel regulator |

## Target Details

2A, Calcium release-activated calcium channel regulator 2A

UniProt: [Q9BSW2](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C, -80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 4°C for frequent use. Store at -20 to -80 °C for twelve months from the date of receipt.
