## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | MUL1                                                     |
| Binding Specificity: | AA 44-224                                                |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This MUL1 antibody is un-conjugated                      |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                          |
|---------------|----------------------------------------------------------|
| Purpose:      | Anti-Human MUL1 Polyclonal Antibody                      |
| Immunogen:    | E. coli - derived recombinant Human MUL1 (Lys44-Gln224). |
| Isotype:      | IgG                                                      |
| Purification: | Antigen affinity purification.                           |

## Target Details

|                   |                                                                                                                                                                                     |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | MUL1                                                                                                                                                                                |
| Alternative Name: | MUL1 ( <a href="#">MUL1 Products</a> )                                                                                                                                              |
| Background:       | Mitochondrial-anchored protein ligase, E3 ubiquitin-protein ligase MUL1, Protein Hades, C1orf166, RNF218, Mitochondrial ubiquitin ligase activator of NFKB 1, Growth inhibition and |

## Target Details

death E3 ligase, MUL1, RING finger protein 218, MAPL, RING-type E3 ubiquitin transferase  
NFKB 1, Putative NF-kappa-B-activating protein 266, GIDE, MULAN, E3 SUMO-protein ligase  
MUL1

UniProt: [Q969V5](#)

Pathways: [Positive Regulation of Endopeptidase Activity](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C, -80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 4°C for frequent use. Store at -20 to -80 °C for twelve months from the date of receipt.
