## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | C20orf149 (PPDPF)                                        |
| Binding Specificity: | AA 2-63                                                  |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This C20orf149 antibody is un-conjugated                 |
| Application:         | Immunohistochemistry (IHC), ELISA, Western Blotting (WB) |

## Product Details

|               |                                                         |
|---------------|---------------------------------------------------------|
| Purpose:      | Anti-Human PPDPF Polyclonal Antibody                    |
| Immunogen:    | E. coli - derived recombinant Human PPDPF (Ala2-Ser63). |
| Isotype:      | IgG                                                     |
| Purification: | Antigen affinity purification.                          |

## Target Details

|                   |                                                                                                                                                 |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | C20orf149 (PPDPF)                                                                                                                               |
| Alternative Name: | PPDPF ( <a href="#">PPDPF Products</a> )                                                                                                        |
| Background:       | Exocrine differentiation and proliferation factor, Pancreatic progenitor cell differentiation and proliferation factor, C20orf149, EXPDF, PPDPF |

## Target Details

---

UniProt: [Q9H3Y8](#)

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

## Handling

---

Format: Liquid

---

Buffer: 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.

---

Preservative: ProClin

---

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 4°C for frequent use.Store at -20 to -80 °C for twelve months from the date of receipt.
