## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | PTPRO                                                    |
| Binding Specificity: | AA 916-1208                                              |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This PTPRO antibody is un-conjugated                     |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA |

## Product Details

|               |                                                             |
|---------------|-------------------------------------------------------------|
| Purpose:      | Anti-Human PTPRO Polyclonal Antibody                        |
| Immunogen:    | E. coli - derived recombinant Human PTPRO (Asn916-Val1208). |
| Isotype:      | IgG                                                         |
| Purification: | Antigen affinity purification.                              |

## Target Details

|                   |                                                                                                                                                                  |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | PTPRO                                                                                                                                                            |
| Alternative Name: | PTPRO ( <a href="#">PTPRO Products</a> )                                                                                                                         |
| Background:       | PTPRO, PTP-U2, PTPase U2, Glomerular epithelial protein 1, Receptor-type tyrosine-protein phosphatase O, R-PTP-O, PTPU2, GLEPP1, Protein tyrosine phosphatase U2 |

## Target Details

|           |                                                 |
|-----------|-------------------------------------------------|
| UniProt:  | <a href="#">Q16827</a>                          |
| Pathways: | <a href="#">Cell-Cell Junction Organization</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                                                                     |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                                              |
| Buffer:            | 0.01M PBS, pH 7.4, 50 % glycerol, 0.05 % Proclin 300.                                                                                                               |
| Preservative:      | ProClin                                                                                                                                                             |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                                                   |
| Storage:           | 4 °C,-20 °C,-80 °C                                                                                                                                                  |
| Storage Comment:   | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 4°C for frequent use.Store at -20 to -80 °C for twelve months from the date of receipt. |
