

Datasheet for ABIN7572295

**Recombinant anti-Afamin antibody**[Go to Product page](#)

## Overview

|                    |                                       |
|--------------------|---------------------------------------|
| Quantity:          | 100 µg                                |
| Target:            | Afamin (AFM)                          |
| Reactivity:        | Human                                 |
| Host:              | Mouse                                 |
| Expression System: | Mammalian cells                       |
| Antibody Type:     | Recombinant Antibody                  |
| Clonality:         | Monoclonal                            |
| Conjugate:         | This Afamin antibody is un-conjugated |
| Application:       | ELISA                                 |

## Product Details

|               |                                                        |
|---------------|--------------------------------------------------------|
| Purpose:      | Recombinant Anti-Human AFM/Afamin Antibody (N14)       |
| Clone:        | N14                                                    |
| Isotype:      | IgG1                                                   |
| Purification: | Protein A or G purified from cell culture supernatant. |
| Purity:       | >95 % by SDS-PAGE.                                     |

## Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | Afamin (AFM)                         |
| Alternative Name: | AFM ( <a href="#">AFM Products</a> ) |

## Target Details

---

Background: ALB2, Alpha-Alb, AFM, Alpha-albumin, ALBA, Afamin

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.01M PBS, pH 7.4.

Storage: -20 °C,-80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze-thaw cycles. Store at +4°C short term (1-2 weeks). Store at -20 °C 12 months. Store at -80°C long term.
