

## Datasheet for ABIN7575378 **CCL3L1 Protein (GST tag)**

[Go to Product page](#)

### Overview

|                               |                                               |
|-------------------------------|-----------------------------------------------|
| Quantity:                     | 100 µg                                        |
| Target:                       | CCL3L1                                        |
| Origin:                       | Human                                         |
| Source:                       | Escherichia coli (E. coli)                    |
| Protein Type:                 | Recombinant                                   |
| Purification tag / Conjugate: | This CCL3L1 protein is labelled with GST tag. |
| Application:                  | Western Blotting (WB), SDS-PAGE (SDS), ELISA  |

### Product Details

|           |                                 |
|-----------|---------------------------------|
| Purpose:  | Recombinant Human CCL3L1, N-GST |
| Sequence: | Ala24-Ala93                     |

### Target Details

|                   |                                                                                                                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | CCL3L1                                                                                                                                                                                                         |
| Alternative Name: | CCL3L1 ( <a href="#">CCL3L1 Products</a> )                                                                                                                                                                     |
| Background:       | LD78-beta(1-70), CCL3L1, Small-inducible cytokine A3-like 1, G0S19-2, G0/G1 switch regulatory protein 19-2, C-C motif chemokine 3-like 1, SCYA3L1, Tonsillar lymphocyte LD78 beta protein, PAT 464.2, D17S1718 |
| Molecular Weight: | 34.64 kDa                                                                                                                                                                                                      |
| UniProt:          | <a href="#">P16619</a>                                                                                                                                                                                         |

## Target Details

---

Pathways: [Cellular Response to Molecule of Bacterial Origin](#)

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
