

Datasheet for ABIN7575411

**Endoglin Protein (ENG) (His tag)**[Go to Product page](#)

## Overview

|                               |                                                 |
|-------------------------------|-------------------------------------------------|
| Quantity:                     | 100 µg                                          |
| Target:                       | Endoglin (ENG)                                  |
| Origin:                       | Human                                           |
| Source:                       | Mammalian Cells                                 |
| Protein Type:                 | Recombinant                                     |
| Purification tag / Conjugate: | This Endoglin protein is labelled with His tag. |
| Application:                  | SDS-PAGE (SDS), Western Blotting (WB), ELISA    |

## Product Details

|           |                                    |
|-----------|------------------------------------|
| Purpose:  | Recombinant Human CD105/ENG, C-His |
| Sequence: | Met1-Gly586                        |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | Endoglin (ENG)                             |
| Alternative Name: | CD105/ENG ( <a href="#">ENG Products</a> ) |
| Background:       | CD105, END, Endoglin, ENG, Drug Target     |
| Molecular Weight: | 64.20 kDa                                  |
| UniProt:          | <a href="#">P17813</a>                     |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

|                 |                                                     |
|-----------------|-----------------------------------------------------|
| Reconstitution: | Reconstitute in sterile water for a stock solution. |
|-----------------|-----------------------------------------------------|

|         |                                                                                    |
|---------|------------------------------------------------------------------------------------|
| Buffer: | Lyophilized from a solution in PBS pH 7.4, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol. |
|---------|------------------------------------------------------------------------------------|

|          |                    |
|----------|--------------------|
| Storage: | 4 °C,-20 °C,-80 °C |
|----------|--------------------|

|                  |                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt. |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
