

## Datasheet for ABIN7575526

### KIR2DL4/CD158d Protein (Fc Tag)

[Go to Product page](#)

#### Overview

|                               |                                                      |
|-------------------------------|------------------------------------------------------|
| Quantity:                     | 100 µg                                               |
| Target:                       | KIR2DL4/CD158d (KIR2DL4)                             |
| Origin:                       | Human                                                |
| Source:                       | Mammalian Cells                                      |
| Protein Type:                 | Recombinant                                          |
| Purification tag / Conjugate: | This KIR2DL4/CD158d protein is labelled with Fc Tag. |
| Application:                  | SDS-PAGE (SDS), ELISA, Western Blotting (WB)         |

#### Product Details

|           |                                        |
|-----------|----------------------------------------|
| Purpose:  | Recombinant Human CD158d/KIR2DL4, C-Fc |
| Sequence: | Met1-His242                            |

#### Target Details

|                   |                                                                                                                                                                                                                                 |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | KIR2DL4/CD158d (KIR2DL4)                                                                                                                                                                                                        |
| Alternative Name: | CD158d/KIR2DL4 ( <a href="#">KIR2DL4 Products</a> )                                                                                                                                                                             |
| Background:       | KIR2DL4, KIR-103AS, KIR103AS, CD158d, CD158 antigen-like family member D, CD158D, MHC class I NK cell receptor KIR103AS, Killer cell immunoglobulin-like receptor 2DL4, G9P, Killer cell inhibitory receptor 103AS, Drug Target |
| Molecular Weight: | 52.95 kDa                                                                                                                                                                                                                       |
| UniProt:          | <a href="#">Q99706</a>                                                                                                                                                                                                          |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

|                 |                                                     |
|-----------------|-----------------------------------------------------|
| Reconstitution: | Reconstitute in sterile water for a stock solution. |
|-----------------|-----------------------------------------------------|

|         |                                                                                    |
|---------|------------------------------------------------------------------------------------|
| Buffer: | Lyophilized from a solution in PBS pH 7.4, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol. |
|---------|------------------------------------------------------------------------------------|

|          |                    |
|----------|--------------------|
| Storage: | 4 °C,-20 °C,-80 °C |
|----------|--------------------|

|                  |                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt. |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
