

## Datasheet for ABIN7575780 FCRL1 Protein (His tag)

[Go to Product page](#)

### Overview

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Quantity:                     | 100 µg                                       |
| Target:                       | FCRL1                                        |
| Origin:                       | Human                                        |
| Source:                       | Escherichia coli (E. coli)                   |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This FCRL1 protein is labelled with His tag. |
| Application:                  | ELISA, SDS-PAGE (SDS), Western Blotting (WB) |

### Product Details

|           |                                               |
|-----------|-----------------------------------------------|
| Purpose:  | Recombinant Human CD307a/FCRL1 Protein, N-His |
| Sequence: | Ala17-Asn293                                  |

### Target Details

|                   |                                                                                                                                                                                                            |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | FCRL1                                                                                                                                                                                                      |
| Alternative Name: | CD307a/FCRL1 ( <a href="#">FCRL1 Products</a> )                                                                                                                                                            |
| Background:       | CD307a, Fc receptor homolog 1, hIFGP1, FcRL1, Fc receptor-like protein 1, FCRL1, IRTA5, IFGP family protein 1, FcR-like protein 1, FcRH1, Immune receptor translocation-associated protein 5, IFGP1, FCRH1 |
| Molecular Weight: | 32.46 kDa                                                                                                                                                                                                  |
| UniProt:          | <a href="#">Q96LA6</a>                                                                                                                                                                                     |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 °C for twelve months from the date of receipt.
