## Overview

|                               |                                               |
|-------------------------------|-----------------------------------------------|
| Quantity:                     | 100 µg                                        |
| Target:                       | SLAMF7                                        |
| Origin:                       | Human                                         |
| Source:                       | Mammalian Cells                               |
| Protein Type:                 | Recombinant                                   |
| Purification tag / Conjugate: | This SLAMF7 protein is labelled with His tag. |
| Application:                  | Western Blotting (WB), SDS-PAGE (SDS), ELISA  |

## Product Details

|           |                                               |
|-----------|-----------------------------------------------|
| Purpose:  | Recombinant Human CD319/SLAMF7 Protein, C-His |
| Sequence: | Met1-Met226                                   |

## Target Details

|                   |                                                                                                                                                                               |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | SLAMF7                                                                                                                                                                        |
| Alternative Name: | CD319/SLAMF7 ( <a href="#">SLAMF7 Products</a> )                                                                                                                              |
| Background:       | SLAM family member 7, CD2 subset 1, CD2-like receptor-activating cytotoxic cells, CRACC, Membrane protein FOAP-12, Novel Ly9, Protein 19A, CD319, SLAMF7, CS1, UNQ576/PRO1138 |
| Molecular Weight: | 25.65 kDa                                                                                                                                                                     |
| UniProt:          | <a href="#">Q9NQ25</a>                                                                                                                                                        |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

|                 |                                                     |
|-----------------|-----------------------------------------------------|
| Reconstitution: | Reconstitute in sterile water for a stock solution. |
|-----------------|-----------------------------------------------------|

|         |                                                                                    |
|---------|------------------------------------------------------------------------------------|
| Buffer: | Lyophilized from a solution in PBS pH 7.4, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol. |
|---------|------------------------------------------------------------------------------------|

|          |             |
|----------|-------------|
| Storage: | 4 °C,-20 °C |
|----------|-------------|

|                  |                                                                                                                                                                 |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 °C for twelve months from the date of receipt. |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
