

Datasheet for ABIN7576880

**Coagulation Factor X Protein (F10) (His tag)**[Go to Product page](#)

## Overview

|                               |                                                             |
|-------------------------------|-------------------------------------------------------------|
| Quantity:                     | 100 µg                                                      |
| Target:                       | Coagulation Factor X (F10)                                  |
| Origin:                       | Human                                                       |
| Source:                       | Escherichia coli (E. coli)                                  |
| Protein Type:                 | Recombinant                                                 |
| Purification tag / Conjugate: | This Coagulation Factor X protein is labelled with His tag. |
| Application:                  | Western Blotting (WB), SDS-PAGE (SDS), ELISA                |

## Product Details

|           |                                       |
|-----------|---------------------------------------|
| Purpose:  | Recombinant Human F10/Factor X, N-His |
| Sequence: | Leu24-Lys488                          |

## Target Details

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Target:           | Coagulation Factor X (F10)                                     |
| Alternative Name: | F10/Factor X ( <a href="#">F10 Products</a> )                  |
| Background:       | Stuart factor, Stuart-Prower factor, Coagulation factor X, F10 |
| Molecular Weight: | 54.70 kDa                                                      |
| UniProt:          | <a href="#">P00742</a>                                         |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
