

Datasheet for ABIN7577000  
**FHL2 Protein (His-SUMO Tag)**

[Go to Product page](#)

## Overview

|                               |                                                  |
|-------------------------------|--------------------------------------------------|
| Quantity:                     | 100 µg                                           |
| Target:                       | FHL2                                             |
| Origin:                       | Human                                            |
| Source:                       | Escherichia coli (E. coli)                       |
| Protein Type:                 | Recombinant                                      |
| Purification tag / Conjugate: | This FHL2 protein is labelled with His-SUMO Tag. |
| Application:                  | ELISA, SDS-PAGE (SDS), Western Blotting (WB)     |

## Product Details

|           |                                                      |
|-----------|------------------------------------------------------|
| Purpose:  | Recombinant Human FHL2 Protein, N-His-SUMO & C-Strep |
| Sequence: | Gly16-Ser98                                          |

## Target Details

|                   |                                                                                                                                 |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Target:           | FHL2                                                                                                                            |
| Alternative Name: | FHL2 ( <a href="#">FHL2 Products</a> )                                                                                          |
| Background:       | DRAL, FHL2, LIM domain protein DRAL, FHL-2, Skeletal muscle LIM-protein 3, Four and a half LIM domains protein 2, SLIM-3, SLIM3 |
| Molecular Weight: | 23.24 kDa                                                                                                                       |
| UniProt:          | <a href="#">Q14192</a>                                                                                                          |
| Pathways:         | <a href="#">Intracellular Steroid Hormone Receptor Signaling Pathway</a> , <a href="#">Regulation of Lipid Metabolism by</a>    |

## Target Details

---

PPARalpha

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

---

|                  |                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                            |
| Reconstitution:  | Reconstitute in sterile water for a stock solution.                                                                                                                    |
| Buffer:          | Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.                                                                         |
| Storage:         | 4 °C,-20 °C,-80 °C                                                                                                                                                     |
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt. |
