

## Datasheet for ABIN7577254

### GPI Protein (His tag)

[Go to Product page](#)

#### Overview

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Quantity:                     | 100 µg                                       |
| Target:                       | GPI                                          |
| Origin:                       | Human                                        |
| Source:                       | Escherichia coli (E. coli)                   |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This GPI protein is labelled with His tag.   |
| Application:                  | ELISA, SDS-PAGE (SDS), Western Blotting (WB) |

#### Product Details

|           |                              |
|-----------|------------------------------|
| Purpose:  | Recombinant Human GPI, N-His |
| Sequence: | Met263-Asn475                |

#### Target Details

|                   |                                                                                                                                                                            |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | GPI                                                                                                                                                                        |
| Alternative Name: | GPI ( <a href="#">GPI Products</a> )                                                                                                                                       |
| Target Type:      | Viral Protein                                                                                                                                                              |
| Background:       | GPI, NLK, Neuroleukin, Phosphohexose isomerase, PHI, Sperm antigen 36, Autocrine motility factor, AMF, SA-36, PGI, Glucose-6-phosphate isomerase, Phosphoglucose isomerase |
| Molecular Weight: | 26.63 kDa                                                                                                                                                                  |
| UniProt:          | <a href="#">P06744</a>                                                                                                                                                     |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
