## Overview

|                               |                                                    |
|-------------------------------|----------------------------------------------------|
| Quantity:                     | 100 µg                                             |
| Target:                       | HEXIM1                                             |
| Origin:                       | Human                                              |
| Source:                       | Escherichia coli (E. coli)                         |
| Protein Type:                 | Recombinant                                        |
| Purification tag / Conjugate: | This HEXIM1 protein is labelled with His-SUMO Tag. |
| Application:                  | ELISA, Western Blotting (WB), SDS-PAGE (SDS)       |

## Product Details

|           |                                                        |
|-----------|--------------------------------------------------------|
| Purpose:  | Recombinant Human HEXIM1 Protein, N-His-SUMO & C-Strep |
| Sequence: | Asp258-Asp359                                          |

## Target Details

|                   |                                                                                                                                                                                               |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | HEXIM1                                                                                                                                                                                        |
| Alternative Name: | HEXIM1 ( <a href="#">HEXIM1 Products</a> )                                                                                                                                                    |
| Background:       | Protein HEXIM1, Cardiac lineage protein 1, HIS1, Menage a quatre protein 1, EDG1, Estrogen down-regulated gene 1 protein, HEXIM1, Hexamethylene bis-acetamide-inducible protein 1, MAQ1, CLP1 |
| Molecular Weight: | 25.90 kDa                                                                                                                                                                                     |
| UniProt:          | <a href="#">O94992</a>                                                                                                                                                                        |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

---

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

---

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

---

|                 |                                                     |
|-----------------|-----------------------------------------------------|
| Reconstitution: | Reconstitute in sterile water for a stock solution. |
|-----------------|-----------------------------------------------------|

---

|         |                                                                                                |
|---------|------------------------------------------------------------------------------------------------|
| Buffer: | Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol. |
|---------|------------------------------------------------------------------------------------------------|

---

|          |                    |
|----------|--------------------|
| Storage: | 4 °C,-20 °C,-80 °C |
|----------|--------------------|

---

|                  |                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt. |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

---
