

## Datasheet for ABIN7577627 IL1RAP Protein (His tag)

[Go to Product page](#)

### Overview

|                               |                                               |
|-------------------------------|-----------------------------------------------|
| Quantity:                     | 100 µg                                        |
| Target:                       | IL1RAP                                        |
| Origin:                       | Human                                         |
| Source:                       | Escherichia coli (E. coli)                    |
| Protein Type:                 | Recombinant                                   |
| Purification tag / Conjugate: | This IL1RAP protein is labelled with His tag. |
| Application:                  | Western Blotting (WB), SDS-PAGE (SDS), ELISA  |

### Product Details

|           |                                 |
|-----------|---------------------------------|
| Purpose:  | Recombinant Human IL1RAP, N-His |
| Sequence: | Gly65-Asn249                    |

### Target Details

|                   |                                                                                                                                                        |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | IL1RAP                                                                                                                                                 |
| Alternative Name: | IL1RAP ( <a href="#">IL1RAP Products</a> )                                                                                                             |
| Background:       | IL-1R3, C3orf13, Interleukin-1 receptor 3, Interleukin-1 receptor accessory protein, IL1RAP, IL-1R-3, IL-1 receptor accessory protein, IL1R3, IL-1RAcP |
| Molecular Weight: | 23.63 kDa                                                                                                                                              |
| UniProt:          | <a href="#">Q9NPH3</a>                                                                                                                                 |
| Pathways:         | <a href="#">NF-kappaB Signaling</a> , <a href="#">Growth Factor Binding</a>                                                                            |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

---

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

---

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

---

|                 |                                                     |
|-----------------|-----------------------------------------------------|
| Reconstitution: | Reconstitute in sterile water for a stock solution. |
|-----------------|-----------------------------------------------------|

---

|         |                                                                                                |
|---------|------------------------------------------------------------------------------------------------|
| Buffer: | Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol. |
|---------|------------------------------------------------------------------------------------------------|

---

|          |                    |
|----------|--------------------|
| Storage: | 4 °C,-20 °C,-80 °C |
|----------|--------------------|

---

|                  |                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt. |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
