## Overview

|                               |                                                       |
|-------------------------------|-------------------------------------------------------|
| Quantity:                     | 100 µg                                                |
| Target:                       | C14orf102                                             |
| Origin:                       | Human                                                 |
| Source:                       | Escherichia coli (E. coli)                            |
| Protein Type:                 | Recombinant                                           |
| Purification tag / Conjugate: | This C14orf102 protein is labelled with His-SUMO Tag. |
| Application:                  | ELISA, Western Blotting (WB), SDS-PAGE (SDS)          |

## Product Details

|           |                                             |
|-----------|---------------------------------------------|
| Purpose:  | Recombinant Human NRDE2 Protein, N-His-SUMO |
| Sequence: | Thr162-Thr266                               |

## Target Details

|                   |                                                                          |
|-------------------|--------------------------------------------------------------------------|
| Target:           | C14orf102                                                                |
| Alternative Name: | NRDE2 ( <a href="#">C14orf102 Products</a> )                             |
| Background:       | Nuclear exosome regulator NRDE2, Protein NRDE2 homolog, C14orf102, NRDE2 |
| Molecular Weight: | 24.22 kDa                                                                |
| UniProt:          | <a href="#">Q9H7Z3</a>                                                   |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                  |                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                            |
| Reconstitution:  | Reconstitute in sterile water for a stock solution.                                                                                                                    |
| Buffer:          | Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.                                                                         |
| Storage:         | 4 °C,-20 °C,-80 °C                                                                                                                                                     |
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt. |
