**PSIP1 Protein (His-SUMO Tag)**[Go to Product page](#)

## Overview

|                               |                                                   |
|-------------------------------|---------------------------------------------------|
| Quantity:                     | 100 µg                                            |
| Target:                       | PSIP1                                             |
| Origin:                       | Human                                             |
| Source:                       | Escherichia coli (E. coli)                        |
| Protein Type:                 | Recombinant                                       |
| Purification tag / Conjugate: | This PSIP1 protein is labelled with His-SUMO Tag. |
| Application:                  | SDS-PAGE (SDS), Western Blotting (WB), ELISA      |

## Product Details

|           |                                             |
|-----------|---------------------------------------------|
| Purpose:  | Recombinant Human PSIP1 Protein, N-His-SUMO |
| Sequence: | Thr2-Asn87                                  |

## Target Details

|                   |                                                                                                                                                                                                                    |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | PSIP1                                                                                                                                                                                                              |
| Alternative Name: | PSIP1 ( <a href="#">PSIP1 Products</a> )                                                                                                                                                                           |
| Background:       | Transcriptional coactivator p75/p52, CLL-associated antigen KW-7, PSIP1, DFS70, Dense fine speckles 70 kDa protein, DFS 70, PC4 and SFRS1-interacting protein, LEDGF, PSIP2, Lens epithelium-derived growth factor |
| Molecular Weight: | 22.24 kDa                                                                                                                                                                                                          |
| UniProt:          | <a href="#">O75475</a>                                                                                                                                                                                             |

## Target Details

Pathways: [Chromatin Binding](#), [Ribonucleoprotein Complex Subunit Organization](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Reconstitution: Reconstitute in sterile water for a stock solution.

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

Storage: 4 °C,-20 °C,-80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
