

Datasheet for ABIN7579116  
**RAB11A Protein (His tag)**

[Go to Product page](#)

## Overview

|                               |                                               |
|-------------------------------|-----------------------------------------------|
| Quantity:                     | 100 µg                                        |
| Target:                       | RAB11A                                        |
| Origin:                       | Human                                         |
| Source:                       | Escherichia coli (E. coli)                    |
| Protein Type:                 | Recombinant                                   |
| Purification tag / Conjugate: | This RAB11A protein is labelled with His tag. |
| Application:                  | ELISA, SDS-PAGE (SDS), Western Blotting (WB)  |

## Product Details

|           |                                 |
|-----------|---------------------------------|
| Purpose:  | Recombinant Human RAB11A, N-His |
| Sequence: | Met1-Glu162                     |

## Target Details

|                   |                                                                                                                                                                    |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | RAB11A                                                                                                                                                             |
| Alternative Name: | RAB11A ( <a href="#">RAB11A Products</a> )                                                                                                                         |
| Background:       | Rab-11, RAB11A, RAB11, YL8, Ras-related protein Rab-11A                                                                                                            |
| Molecular Weight: | 20.55 kDa                                                                                                                                                          |
| UniProt:          | <a href="#">P62491</a>                                                                                                                                             |
| Pathways:         | <a href="#">Regulation of Cell Size</a> , <a href="#">Thromboxane A2 Receptor Signaling</a> , <a href="#">Regulation of long-term Neuronal Synaptic Plasticity</a> |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
