

## Datasheet for ABIN7579176 RBBP7 Protein (His tag)

[Go to Product page](#)

### Overview

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Quantity:                     | 100 µg                                       |
| Target:                       | RBBP7                                        |
| Origin:                       | Human                                        |
| Source:                       | Escherichia coli (E. coli)                   |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This RBBP7 protein is labelled with His tag. |
| Application:                  | ELISA, SDS-PAGE (SDS), Western Blotting (WB) |

### Product Details

|           |                                        |
|-----------|----------------------------------------|
| Purpose:  | Recombinant Human RBBP7 Protein, N-His |
| Sequence: | Ile120-Ser425                          |

### Target Details

|                   |                                                                                                                                                                                                                     |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | RBBP7                                                                                                                                                                                                               |
| Alternative Name: | RBBP7 ( <a href="#">RBBP7 Products</a> )                                                                                                                                                                            |
| Background:       | Nucleosome-remodeling factor subunit RBAP46, Histone-binding protein RBBP7, RBAP46, Retinoblastoma-binding protein 7, Histone acetyltransferase type B subunit 2, Retinoblastoma-binding protein p46, RBBP-7, RBBP7 |
| Molecular Weight: | 36.48 kDa                                                                                                                                                                                                           |
| UniProt:          | <a href="#">Q16576</a>                                                                                                                                                                                              |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
